

Section 1 – IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name: Enamel Gloss Paint Aerosol 400ml (Various colours)

Product Code: Gloss White 8694, Gloss Silver 8684

Uses: Quick dry enamel paint.

Chemz Limited Company: Address: 80 Rangitane Place

Whakatu, Hastings

+64 6 877 9690 Telephone: Email: info@chemz.co.nz

Emergency Phone Number: 0800 764 766 (0800 POISON) National Poison Centre 24 Hr

Section 2 – HAZARDS IDENTIFICATION

Classification of the product

Considered a hazardous substance according to the Hazardous Substances (Hazard Classification) Notice 2020.

Classified as a dangerous goods for transport purposes.

GHS Classifications:

HSNO Classifications:

Aerosol Category 1 2.1.2A Flammable aerosol Irritating to the skin Skin irritation Category 2 6.3A Eye irritation Category 2 6.4A Irritating to the eye

Reproductive Toxicity Category 2 6.8B Suspected human reproductive or developmental toxicants

STOT (Single exposure) Category 2 6.9B Harmful to human target organs (single exposure)

Hazardous to Aquatic Environment (Chronic) Category 2 Toxic to the aquatic environment with long lasting effects 9.1B

Signal Words: Danger

Hazard Statements:

H222 Extremely flammable aerosol

H229 Pressurised container: May burst if heated

H315 Causes skin irritation.

H319 Causes serious eye irritation.

H361 Suspected of damaging fertility or the unborn child.

H371 May cause damage to organs

H411 Toxic to aquatic life with long lasting effects.

Precaution Statements:

P102 Keep out of reach of children.

P103 Read label before use.

P201 Obtain special instructions before use.

P202 Do not handle until all safety precautions have been read and understood.

P210 Keep away from heat and open flames/hot surfaces. No smoking.

Ref: Gloss Enamel Paint (various colours) Aero

P211	Do not spray on an op-	en flame or other igi	nition source.

P251 Pressurised container: Do not pierce or burn, even after use.

P271 Use only outdoors or in a well-ventilated area.

P264 Wash hands thoroughly after handling.

P281 Use personal protective equipment as required.
P412 Do not expose to temperatures exceeding 50 °C.

P391 Collect spillage P405 Store locked up.

Section 3 - COMPOSITION INFORMATION ON INGREDIENTS

Hazardous Ingredients	CAS No.	Proportion, % m/m
Naphtha (Petroleum) Hydrotreated Light	64742-49-0	10 - 30
Acetone	67-64-1	10 -30
Xylene	1330-20-7	1 - 10
Toluene	108-88-3	1 - 10
LPG (butane, propane)	68476-85-7	10 - 30
Non-hazardous ingredients		to 100

Section 4 - FIRST AID MEASURES

If medical advice is needed, have product container or label at hand.

If exposed or if you feel unwell: Call a POISON CENTRE or doctor.

Eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to

do. Continue rinsing. If eye irritation persists: Get medical advice.

Inhalation: IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for

breathing. If experiencing respiratory symptoms: Call a POISON CENTRE or doctor.

Skin contact: IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice.

Ingestion: Not considered a normal route of entry. IF SWALLOWED: Immediately call a POISON CENTRE or doctor.

 $\label{lem:condition} \mbox{Do NOT induce vomiting. Obtain immediate medical attention.}$

Notes to physician: Treat symptomatically and supportively. No specific antidote.

Section 5 – FIRE-FIGHTING MEASURES

General fire hazards: Pressurised container, extremely flammable aerosol.

Specific hazards: Containers can build up pressure if exposed to heat and/or fire and may explode. Vapours may form an

explosive mixture with air. Vapours can travel to a source of ignition and flash back. Contents may float

and be re-ignited on surface water.

Further advice: On burning may emit toxic fumes including those of carbon monoxide and carbon dioxide. Fire fighters to

wear self-contained breathing apparatus if risk of exposure to products of combustion.

Extinguishing media: Use water spray, fog, or foam. Use water spray to cool fire-exposed containers. Water may be ineffective.

Do not discharge extinguishing waters into the aquatic environment. Do NOT use straight streams of

water.

Protective equipment: Firefighters must use standard protective equipment including flame retardant coat, helmet with face

shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Firefighting instructions: In the event of fire, cool containers with water spray to prevent vapour pressure build up. Move

containers from fire area if you can do so without risk. Runoff can cause environmental damage.

Ref: Gloss Enamel Paint (various colours) Aero Date: 25.3.25 Supersedes: New Issue No: 1 Page 2 of 8 pages

Hazchem Code: 2YE

Section 6 – ACCIDENTAL RELEASE MEASURES

Minor spills: Clean up all spills immediately. Remove all sources of ignition. Wipe up with absorbent material. Avoid

breathing vapours and contact with skin and eyes. Wear protective clothing, gloves and safety glasses. Provide ventilation in workplace environment if necessary. If safe to do, damaged containers should be

placed in a container outdoors, away from all ignition sources.

Major spills: Evacuate the spill area and move upwind. Call the Fire Brigade. Remove all sources of ignition. No

smoking. May be violently or explosively reactive. Increase ventilation if possible. Wear breathing

apparatus and protective gloves.

If safe to do so, prevent spillage from entering drains or water courses. If material enters drains, advise emergency services. Use absorbent (soil, sand or other inert material). Collect and seal in properly labeled containers for disposal. Undamaged containers should be gathered and stored safely, away from

ignition sources.

Section 7 - HANDLING AND STORAGE

Handling Precautions: Read product label before use. Keep out of reach of children. Do not handle until all safety precautions

have been read and understood.

This product is highly flammable. Keep away from heat and open flames. Do not spray on an open flame or

other ignition source. Pressurised container: Do not pierce or burn, even after use. No smoking.

Use outdoors or in a well-ventilated area. Avoid breathing spray or vapours. In confined areas, wear a

respirator. Wash hands with soap and water after handling.

Storage: Protect from sunlight. Do not expose to temperatures exceeding 50 °C. Store in a well ventilated, cool,

dry place. Do not store in basements or areas where vapours may accumulate. Keep away from heat,

sparks, and flame. Store away from incompatible materials. Store locked up.

Section 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits: No value assigned for product. Exposure standards for constituents (NZ WES);

Material	TWA, mg/m ³	STEL, mg/m ³	Cat/Notices
Naphtha (Petroleum) Hydrotreated Light	1,640	2,050	Not available
Acetone	1,185	2,375	bio
Toluene	188	Not available	skin
Xylene	217	Not available	Not available
LPG (butane, propane)	1,800	Not available	Not available

(bio) - Exposure can also be estimated by biological monitoring.

Emergency Limits (TEEL) Temporary Emergency Exposure Limits

Material	TEEL-1	TEEL-2	TEEL-3
Naphtha (petroleum), Hydrotreated Light	1,200 mg/m ³	6,700 mg/m ³	40,000 mg/m ³
Acetone	Not available	Not available	Not available
Toluene	Not available	Not available	Not available
Xylene	Not available	Not available	Not available
Butane	Not available	Not available	Not available
Propane	Not available	Not available	Not available

Ref: Gloss Enamel Paint (various colours) Aero

Emergency Limits (IDLH)

Immediately Dangerous To Life or Health (IDLH) Values

Material	Original IDLH	Revised IDLH
Naphtha (petroleum), Hydrotreated Light	2,500 mg/m ³	Not available
Acetone	2,500 ppm (10% LEL)	Not available
Toluene	Not available	Not available
Xylene	900 ppm	Not available
Butane	1,600 ppm	Not available
Propane	Not available	2,100 ppm

Material Data

Butane: Odour Threshold Value 2590 ppm (recognition)

Butane in common with other straight chain saturated aliphatic hydrocarbons is not characterised by its toxicity but by its narcosis-inducing effects at high concentrations. It is considered that this limit will protect workers against drowsiness and other narcotic effects.

Butane Odour Safety Factor (OSF) = 0.22

Propane: Odour Safety Factor (OSF) = 0.16

Additional Information: Wash hands b

Wash hands before eating, drinking and smoking.

Engineering Controls:

No controls generally required when handling small quantities. Use with adequate ventilation.

Larger quantities: General exhaust is adequate under normal operating conditions. Exhaust ventilation should be designed to prevent accumulation and recirculation in the workplace. Ventilation equipment

and lighting should be explosion-resistant.

Protective Equipment:

Eye and face protection: Safety glasses or goggles.

Skin Protection: No special equipment needed for minor exposure to small quantities. For moderate exposures wear general protective light weight latex gloves. For heavy exposures, wear chemical protective (PVC) and safety boots.

Other Protection: Protective clothing such as overalls, apron and boots are recommended for moderate or heavy use. Operators insulated from earth may develop static charges sufficient to ignite flammable gas/air mixtures. Avoid by wearing low resistivity outer material.

Wash contaminated clothing before reuse. Contaminated work clothing should not be allowed out of the workplace.

Respiratory Protection: Where the concentration of gas/particulates in the breathing zone exceeds the "Exposure Standard" (or ES), respiratory protection is required.

Use Type AX-P filter (AS/NZS 1716 & 1715, EN 143:2000 & 149:2001, ANSI Z88)

The wearer must be warned to leave the contaminated area immediately on detecting any odours through the respirator.

Cartridge performance is affected by humidity. Cartridges should be changed after 2 hours of continuous use unless the humidity is less than 75%, when cartridges can be used for 4 hours. Used cartridges should be discarded daily, regardless of the length of time used.

Section 9 – PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Coloured, liquid spray.

Odour: Ketone odour.

Odour Threshold: Not available.

pH: Not applicable.

Melting Point, °C: Not available.

Freezing Point, °C: Not available.

Ref: Gloss Enamel Paint (various colours) Aero

Date: 25.3.25

Supersedes: New

Initial Boiling Point, °C: 55 (base liquid)

Boiling Point Range, °C: 55 – 115 (base liquid)

Flash Point, °C: < 0 (propellant)

Flammability: Highly flammable liquid and vapour.

Explosion Limit, % v/v: LEL 1.2% UEL 9.5%

Vapour Pressure, kPa: 300 - 600

Vapour Density (Air = 1): > 1

Relative Density: 0.76

Solubility: Insoluble in water.

Partition Coefficient: Not available (n-octanol/water)

Autoignition Temp, °C: Not available.

Decomposition Temp, °C: Not available.

Kinematic Viscosity, mm²/s: Not available.

Particle Characteristics: Not available.

Section 10 - STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use. Not reactive. Avoid oxidisers. Avoid elevated temperatures.

Section 11 - TOXICOLOGICAL INFORMATION

Basis for Assessment: Information given is based on product testing, and/or similar products, and/or components.

Acute Oral Toxicity: LD₅₀ estimated to be 3,155 mg/kg (based on component mixture, excluding propellant).

Acute Dermal Toxicity: LD₅₀ estimated to be > 2,000 mg/kg (based on component mixture, excluding propellant).

Acute Inhalation Toxicity: LC_{50} estimated to be > 20 mg/L, Rat 4 hour (based on component mixture).

Beware: Deliberately sniffing or inhaling concentrated contents can be harmful or fatal.

Toxicity of Components:

Material	Toxicity	Irritation
Naphtha (petroleum), Hydrotreated Light	Oral (rat) $LD_{50} > 4,500 \text{ mg/kg}$ Dermal (rabbit) LD_{50} 1,900 mg/kg Inhalation (rat) LC_{50} 29.3 mg/L 4 hr	Slight eye and skin irritant.
Acetone	Oral (rat) LD ₅₀ 3,000 mg/kg Dermal (guinea pig) LD ₅₀ 7,436 mg/kg Inhalation (rat) LC ₅₀ 50 mg/L	Moderate eye irritant.
Toluene	Oral (rat) LD_{50} 636 mg/kg Dermal (rabbit) $LD_{50} > 2,000$ mg/kg Inhalation (rat) LC_{50} 49 mg/L 4 hr	Mild eye irritant.
Xylene	Oral (rmouse) LD_{50} 4,300 mg/kg Dermal (rabbit) LD_{50} 2,000 mg/kg Inhalation (rat) $LC_{50} > 27.6$ mg/L	Slight skin irritant. Moderate eye irritant.
Hydrocarbon Propellant	Oral (rat) $LD_{50} > 10,000$ mg/kg Dermal (rabbit) $LD_{50} > 10,000$ mg/kg Inhalation (rat) $LC_{50} = 438$ mg/L 4 hr	Not a skin or eye irritant.

Not Available: Applies to data either not available or does not fill the criteria for classification.

Skin Irritation: May cause skin irritation. Avoid contact with skin.

Ref: Gloss Enamel Paint (various colours) Aero Date: 25.3.25 Supersedes: New Issue No: 1 Page 5 of 8 pages

Eye Irritation: Spray may be irritating to the eye. Avoid contact with eyes.

Inhalation: May cause drowsiness or dizziness.

Respiratory Irritation: Inhalation of vapours or mists may cause irritation to the respiratory system.

Sensitisation: Contains a contact sensitiser and may cause an allergic skin reaction in sensitive persons.

Mutagenicity: Not expected to be mutagenic.

Carcinogenicity: Not expected to be carcinogenic.

Reproductive toxicity: Contains a reproductive toxicant.

Specific Target Organ Toxicity: Harmful to human target organs (single exposure).

STOT (Narcotic): Prolonged inhalation of vapours may cause drowsiness or dizziness.

Repeated Dose Toxicity: Repeated prolonged contact may result in irritant contact dermatitis.

Additional Information: None of the components present in this material at concentrations equal to or greater than 0.1% are

listed by IARC, NTP, OSHA or ACGIH as being carcinogens.

Section 12 - ECOTOXICITY INFORMATION

Ecotoxicity: For Hydrocarbons: log Kow 1, BCF ~ 1

Material	Test	Value	Source
Liquid Product	Not available	Not available	Not available
Acetone	Not available	Not available	Not available
Naphtha (petroleum) Hydrotreated Light	LC ₅₀ Fish, 96 hr EC ₅₀ Crustacean, 48 hr EC ₅₀ Algae 72 hr	4.1 mg/L 3.0 mg/L > 1 mg/L	EchaChem EchaChem EchaChem
Toluene	LC ₅₀ Fish, 96 hr EC ₅₀ Crustacean, 48 hr EC ₅₀ Algae 72 hr	0.0073 mg/L 3.78 mg/L 12.5 mg/L	US EPA Ecotox ECETOC US EPA Ecotox
Xylene	LC ₅₀ Fish, 96 hr EC ₅₀ Crustacean, 48 hr EC ₅₀ Algae 72 hr	2.6 mg/L 1.8 mg/L 3.2 mg/L	EchaChem EchaChem EchaChem

Persistence/degradability: No data available for all ingredients (Air, Water, Soil).

Bioaccumulation Potential: No data available for all ingredients

Mobility in Soil: No data available for all ingredients.

Other Adverse Effects: Components are harmful to aquatic life with long lasting effects.

Ecotoxicity: Harmful to aquatic life with long lasting effects.

Mobility: Mobility is expected to be low.

Persistence/degradability: Not readily biodegradable.

Bioaccumulation Potential: Some components are persistent and may bioaccumulate.

Section 13 - DISPOSAL CONSIDERATIONS

Material Disposal: Product wastes are ecotoxic and should be disposed of in accordance with applicable regulations. Do not

dispose into the environment, in drains or in water courses. Waste product should not be allowed to

contaminate soil or water.

Ref: Gloss Enamel Paint (various colours) Aero Date: 25.3.25 Supersedes: New Issue No: 1 Page 6 of 8 pages

Large quantities should be degassed by an aerosol recycler. Do not dispose of large quantities of

pressurised aerosols in landfills. Incineration in an authorised facility is suggested.

Container Disposal: Recycle empty container if possible or dispose in landfill. Product containers are also considered wastes

of the same class of the contents and should be disposed of in accordance with applicable regulations.

If it is a class 6, 8 or 9 it must be disposed by treating it so it is no longer a hazardous substance. If it contains components that are bioaccumulative and not rapidly degradable, it must be treated so that the

substance is no longer a hazardous substance.

Container Recycling: Recyclable metal - Recycle if possible. Packages which hazardous content have been appropriately

treated to remove residual contents may be recycled.

Workplace: Send empty cans to a metal recycler, approved aerosol recycler or commercial waste stream.

Consumer: Recycle if possible or place empty can in normal household waste stream.

Section 14 - TRANSPORT INFORMATION

Transport: Classified as a Dangerous Good for transport purposes.

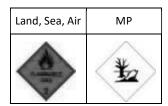

Class 2.1 should not be loaded on the same vehicle as Classes 1, 3 (where both are in bulk), 4, 5, and 7.

They may be loaded with Classes 3, 6, 8, 9, foodstuffs and foodstuff empties.

Proper Shipping Name: Aerosols
UN Number: 1950

Dangerous Goods Class: 2.1

Transport Labels Required: Class 2 Flammable (Land, Sea and Air)

Subsidiary Risk: Not applicable

Packing Group: Not applicable

Marine Pollutant: Yes

EMS Number F-D, S-U (UN 1950 Flammable aerosols)

DG Segregation: This product is classified as a Dangerous Goods. Consult the Land Transport Rule: Dangerous Goods 2005,

and NZS 5433:2012 Transport of Dangerous Goods on Land for information.

Section 15 – REGULATORY INFORMATION

EPA Approval Number: HSR002515 Aerosols (Flammable) Group Standard 2020.

EPA Hsno Controls: Refer to www.epa.govt.nz for information on Controls.

This substance is to be managed using the conditions specified in an applicable Group Standard.

Inventory Listing NZIOC (New Zealand Inventory of Chemicals); All components of this product are listed.

SDS regulations This Safety Data Sheet was prepared in accordance with the EPA Hazardous Substances (Safety Data

Sheets) Notice July 2017 (Consolidated 30 September 2022)

Section 16 – OTHER INFORMATION

Additional information Personal Protective Equipment Guidelines: The recommendation for protective equipment contained is

provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final

selection of personal protective equipment is made.

Ref: Gloss Enamel Paint (various colours) Aero

Health Effects from Exposure: It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.
